## **About All Angels' Church:**

All Angels' Church, located on the Upper West Side of Manhattan, is a diverse community of people from the New York metropolitan area: urban professionals, artists, families, singles and students, bound together by a common faith, love for God and love for our city. We were planted by St. Michael's Episcopal Church in 1859 as a mission in Seneca Village (now Central Park) to land owning blacks and new immigrants from Europe. Today, we continue that mission in being a visible sign of God's invisible kingdom breaking through the dividing walls of racial, socio-economic and generational differences in our world.

Our vision is to see people transformed by the gospel, formed into the image of Christ and empowered for missional living.
